### The Beginning of a New Year

The Chinese New Year arrives on Jan 29, 2006 with the year of the Dog. Read on for some suggestions on how to maximize the positive elements in all areas of life within the year of the Dog.

To help stimulate overall prosperity and/or hope for financial improvements. Start with a new wallet, purse or change purse at the least. (Ideally all three should be new, but do what you can manage. Also never by a wallet, purse etc. with a credit card - cash only please! Ideally purses should be first filled with 3 new coins before the first "use" and the 3 new coins (penny dated that year or year of person's birth are

best.) Coins should never be spent, just kept tucked away till years end when they should be given away to charity/church.

Best colour for prosperity in purses/wallets key cases . . . green (dark), black, red, never dark brown or burgundy. Any old debts/obligations should be cleared by January 29, 2006. If not completely paid outright, at least arrangements made even if payment finishes later. For cheques/payments even postdated to be "written" out before January 29, 2006 Start with a new pen/pencil to write out cheques/bills/payments. If possible start with at least one new tool depending on your profession. As a professional Psychic myself, I always start my first readings in a New Year with a new set of cards.

Artist/Painter - new paintbrush, pail etc. /

Agents - Real Estate / Insurance - pen, new business card or at least case for business cards, briefcase etc.

Advertising - pen, computer disk, telephone/fax

Athlete/Fitness Instructor - new equipment, ideally shoes or socks.

Bankers/Cashier - new calculator, pen, new currency/coins in the till.

Baker/Cook - pans, bowls, new supplies, flour, salt etc.
