## superstitions

*With the sexy, sensuous and frisky month of February upon us I thought my readers might enjoy some fun and romantic ways to read their future. Enjoy!!*

To determine the first initial of your true love's name, gather a very fresh vibrant red apple, best to be a medium to large size if possible.

Light a candle (pink or red) put up some sexy incense, jasmine or rose or perhaps sexy music. Basically do what best puts you in an upbeat open minded relaxed mood.

Take a sharp knife and starting as close to the top (stem), peel the apple to

produce a continuous piece of skin (as best you can). Don't rush yourself as you are paring the apple; try to focus the most peaceful and loving energies you can. The larger and unbroken the peel the more effective your efforts.

Once you're done peeling, put aside the knife and with cupped hands gather the peel you have produced, concentrate on clearing your mind and gently toss it over your left shoulder to land spontaneously on the floor behind you. Without lifting or touching it, study the peel to see which initial has formed. That will be your answer.

To determine when a single person will marry, again find a lush red apple concentrate on clearing your mind and spontaneously, at which ever side the apple appeals to you,

cut it with a single slice right through the middle.

Now count the number of seeds exposed. If the number of exposed seeds is even, the person will make plans to marry within the year. If the number is odd, the marriage will be in the distant future (at least 2yrs).

If one or any of seeds are cut, it is to be taken as a no answer, not possible now. This method should not be redone for at least one lunar month (28 days).

Divination using candy

1) Find a bag of heart shaped candies. The best for your purposes is the hard-unwrapped kind.

2) Using a red or pink fine tipped marker, write clearly the letters of the alphabet on 26 of the candies.

3) On twelve more of the candies, write out the twelve months of the year in short form, from Jan to Dec.

4) On seven more candies, write the numbers 1 to 7.

5) Find 3 separate containers (any material except plastic) wine or drinking glasses are fine.

Place all the alphabet hearts in one container. Place all the hearts with the months written on them in another container. Place all the hearts numbered 1 to 7 in a third container.

As with all other divination, clear your mind, and with your eyes closed, reach in with your left hand. For a total count of three times, stir the contents of the first glass and then reach out and draw out a single candy. Follow suit with each glass the same way.

Alphabet Heart will give you the first initial of your future spouse. Month heart will tell you when you marry in. The numbered hearts will tell whether marriage is 1,2,3, years in the future.

*The vital, refreshing month of March is here at last! In celebration of this wonderful time of renewal and new beginnings. I thought it would be neat to include a variety of interesting information to help you and those you love to get your "Spring" off to the most beneficial start. Read on and enjoy.*

**ST. PATRICK'S DAY** - even if your not of Irish ancestry wear even a wee bit of green this day to

boost your overall health and luck with money and especially games of chance in the year ahead. Try to choose a medium to light green colour to best "draw" and please the energy of the little people.

Give to those you love (or to yourself alone if your loved ones don't wish to participate) a potful of clover. It is said to be along with "lady's slipper" and toad stools the little people's most favourite plants.

The little ones are also rumoured to

adore chocolate particularly when wrapped in shiny paper or with a shiny coating (ie) jelly beans, Hershey kisses, lifesavers. Ideally some if not all of the containers holding your "gift" should be green, gold or silver.

It is acceptable to "eat" some yourself but always first "place" a piece for your little guests in each corner of the room your in. The tradition behind this is a tie into the four directions - north, south, east and west. By placing "gifts" like that you were "seen" by the little people as welcoming their presence and corresponding blessings of luck, prosperity, health and happiness for all who dwell in the home. (Special Note - "gifts" to

home. (Special Note - "gifts" to the little ones should be replaced with fresh ones according to the moon's cycle each month. Place new gifts approximately every two weeks as close to the new moon and full moon respectively. You're also welcome to eat the "old" gifts if you wish if not put them into a compositor or the ground as a means to indicate your "respect" for the cycle of life on the earth.

Bells and windchimes (the shinier and brighter the better) hung on door knobs or near a back/front door of a house or at least near the kitchen area in the month of March are said to "draw" the strength and energy of spring into whatever room you choose.

The colours/materials should strive to compliment /represent spring and the elements you are trying to attract.

Dark green, silver, gold colours in a round, circular shape = money prosperity - business - career.

Medium green, lavender, white and yellow colours in triangular, hexagon or rectangular shapes = health and wellness, healing, rejuvenation

Light green, pink, white, in heart, teardrop or figure - eight shapes = romance, love, fertility, offspring.

### Spring symbols and their significance

(Special Note - the following can be used as clothing, furnishings, foods,

jewelry or decoration).

Rabbits = fertility, \ happiness with children /pregnancy. Overall abundance/plentifulness

Chickens = family togetherness /closeness. Prosperity - commerce  
Lambs = renewal of life - new enterprise - health - ancestors.

Eggs = fertility, return of strength following illness and depending upon colours (same as windchimes) can draw a multitude of positive energies if placed in baskets -containers throughout the house/business you wish to benefit.

Butterflies - spiritual joy - peace - rebuilding of self after stressful - difficult times.

Newly minted coins (or chocolate ones) - given as gifts in March bring prosperity to the receiver. New pennies and nickels are best given in an odd number in a new wallet or change purse.

Try even, its from a mix to "bake" something this month for each family member and ideally co-workers or other relatives to enjoy - try to keep the before mentioned "spring energy colours" in mind when your icing cakes, cookies etc.

Bring a fresh bouquet of flowers or at least a new plant into the house to "charge" the house with spring energies too! Placing your choices again in specifically coloured - shaped pots containers will only add to the impact of what you try to create - use your imagination!!
